

## Sasebo City Disaster & Emergency Shelter Locations

### **Guidelines:**

Sheltering-In-Place at your home should always be considered first, rather than traveling in a storm or disaster.

This list contains every pre-designated shelter operated by the City of Sasebo. All shelters are CLOSED unless activated for a specific emergency.

The City releases a list of shelters that are open, only after considering what the emergency is, and where it is located.

This list may contain translation errors, incorrect maps/directions, and is subject to change at any time.

Please locate the emergency shelters near your home well before an emergency.

This is provided as a service from the CFAS N37 Emergency Management Department.

For additional information during non-emergency times is available by email at:

[M-SA-CFAS-EM-OFFICE-GD@fe.navy.mil](mailto:M-SA-CFAS-EM-OFFICE-GD@fe.navy.mil) or DSN (315) 252-2300/252-2321.

Monitor official CFAS Social Media for updates and information about closures and base access.

### **ADDITIONAL INFORMATION**

#### **Where Should You Evacuate to?**

There are various types of evacuation areas and facilities that are designated for different types of evacuation.

#### **How Can You Get Evacuation Information?**

Evacuation Information is issued in English on media such as NHK, Armed Forces radio, and by text messages to your phone.

The Japan Meteorological Agency (JMA) Official Site also has up-to-date weather warning and advisory information color-coded to the chart below.

[Japan Meteorological Agency \(JMA\) Official Site](#)

Use the map on the page to navigate to your prefecture and city.

You can also get weather warning and advisory information by checking your local city or ward's website.

The information is usually only available in Japanese, but if there is an "English" button on the page, you will be taken to a machine-translated version of the page.

**Prepare to Evacuate:**

Find Your Shelters BEFORE you need them. It is difficult to tell exactly where the shelters are unless you are very familiar with geographical circumstances and the names of schools and parks in your town or Cho. If you only look at the map, you can not accurately tell how far it is, how wide or narrow the streets are, what the evacuation areas is like, especially when you are a foreign resident here.

We recommend that you make a visit on foot to the evacuation place(s) near your place of residence and have a look at them before a real disaster takes place. You will realize things like, "It is further than I expected," or "There is no pedestrian crossing here," or maybe "That footbridge doesn't seem very stable so we should not use in the event of disaster," and "There is absolutely no parking here." It is also preferable to write down and memorize the names and locations of districts, schools, and parks around your residence. Emergency broadcasting from police or fire stations will inform you of which park you should take refuge at the time of disaster, but it won't be of any use unless you know its location.

Prepare your Emergency Evacuation Kit for your residence.

Update your Emergency Evacuation Packet so that you have your essential documents with you at all times.

**What to Do When You Evacuate:**

There is no need to take refuge outside except when the insides of the houses or buildings are no longer safe, or there appears danger of fire.

Evacuate immediately if:

- \*there is the outbreak of a fire beyond your control.
- \*you can see the danger of building collapsing.
- \*Law Enforcement or Firefighter instructs you to.

Remember the following points concerning evacuation:

- \*turn off all circuit breakers and the gas main before leaving
- \*put on sturdy shoes and suitable outerwear
- \*keep your possessions to a minimum
- \*do not use a car or bicycle to evacuation shelter
- \*take action in a group, together with your family, friends, and neighbors when possible

The alert levels in Japan's disaster alert system are divided into five levels to inform residents of the action they should take in preparation for floods and landslides:

## Five Alert Levels of Weather Conditions and Disaster Prevention Information

Alert Level	Situation	Action Taken by Residents	Municipality's Response (Evacuation Information)	Equivalent Alert Level	Disaster Prevention and Weather Condition Information referred to when residents act on their own judgement. (announced by JMA, etc.)		
<b>5</b>	<b>Disaster Occurrence or Imminent Disaster</b>	<b>Life-Threatening Situation Secure safety immediately</b>	<b>Emergency Safety Measures (*1)</b>	<b>Equivalent to 5</b>	<b>Flood Occurrence Information</b>	<b>Heavy Rain Emergency Warning</b>	<b>Storm Surge Flood Occurrence Information</b>
<i>~~~~~ Make sure to evacuate at Alert Level 4 or lower ~~~~~</i>							
<b>4</b>	<b>High Risk of Disaster</b>	<b>Everyone evacuates from hazardous places</b>	<b>Evacuation Order</b>	<b>Equivalent to 4</b>	<b>Flood Risk Information</b>	<b>Landslide Alert Information</b>	<b>Storm Surge Emergency Warning Storm Surge Warning</b>
<b>3</b>	<b>Risk of Disaster</b>	<b>The elderly and others evacuate from hazardous places (*2)</b>	<b>Evacuation of the Elderly and Others</b>	<b>Equivalent to 3</b>	<b>Flood Alert Information</b>	<b>Heavy Rain Warning Flood Warning</b>	<b>Storm Surge Advisory which may be raised to Storm Surge Warning</b>
<b>2</b>	<b>Worsening Weather Conditions</b>	<b>Check how to evacuate</b>	<b>Heavy Rain Advisory Flood Advisory Storm Surge Advisory (announced by JMA)</b>	<b>Equivalent to 2</b>	<b>Flood Advisory</b>	-----	-----
<b>1</b>	<b>Risk of Worsening Weather Conditions</b>	<b>Stay on alert for disasters</b>	<b>Probability Forecast of Warnings for Meteorological Phenomena (announced by JMA)</b>	<b>Equivalent to 1</b>	-----	-----	-----

**Notes:**

\*1 – Alert Level 5 is not always issued due to reasons such as municipality being unable to accurately grasp disaster situation.

\*2 – At Alert Level 3, people other than elderly people, disabled people, etc. should also start to refrain from day-to-day activities as needed and evacuate voluntarily if they feel that they are already in danger.

**Level 1 – White – You should stay on the alert for disasters. (災害への心構えを高める。)**

Although risk of disaster occurrence is still low, you should prepare yourself for disasters by paying close attention to the latest information, etc. when Japan Meteorological Agency (JMA) has announced "Probability Forecast of Warnings for Meteorological Phenomena" at Alert Level 1.

**Level 2 – Yellow – You should check how to evacuate. (自らの避難行動を確認する。)**

You should confirm your own evacuation action plan in preparation for evacuation when JMA has announced "Heavy Rain Advisory", "Flood Advisory", etc. at Alert Level 2 and it has brought heightened attention to risk of disaster occurrence. Locations of disaster hazard areas, timing, destination and route of evacuation, items for emergency evacuation kit, etc. should be considered.

**Level 3 – Red – The elderly and others should evacuate from hazardous places. (危険な場所から高齢者等は避難。)**

Elderly people, disabled people, etc. who require longer time to evacuate should evacuate to safer places such as a designated shelter if they are in hazardous places when JMA has announced "Heavy Rain Warning", "Flood Warning", etc. and their municipality has issued "Evacuation of the Elderly and Others" (koreishato hinan, 高齢者等避難) at Alert Level 3. All other people should prepare to evacuate.

**Level 4 – Purple – Everyone should evacuate from hazardous places. (危険な場所から全員避難。)**

Residents of the affected areas who are in hazardous places should evacuate immediately when JMA has announced "Landslide Alert Information", etc. and their municipality has issued "Evacuation Order" (hinan shiji, 避難指示) at Alert Level 4.

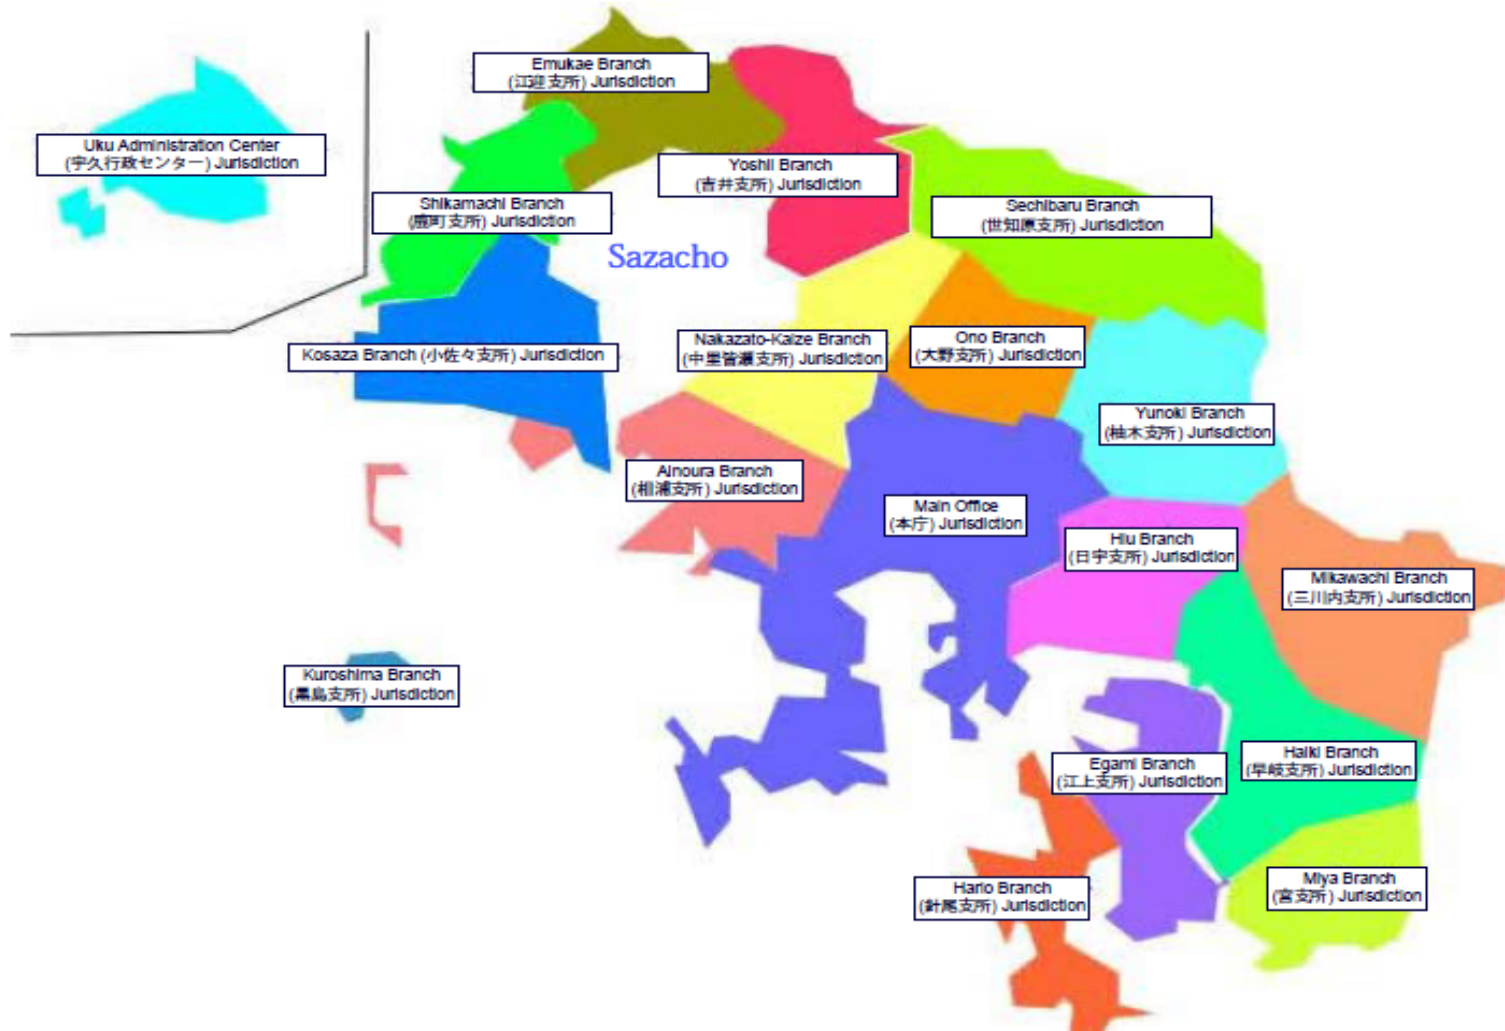

Risk of disaster occurrence is extremely high. If you judge that evacuating to a shelter designated by your municipality may put your life in danger, you should seek refuge to a safer nearby place, a safer room in your building, etc. immediately.

**Level 5 – Black – Life-Threatening Situation. You should secure your own safety immediately! (命の危険。直ちに安全確保!)**

You should take the best actions for protecting your life when JMA has announced "Heavy Rain Emergency Warning", etc. and your municipality has issued "Emergency Safety Measures" (kinkyu anzen kakuho, 緊急安全確保) at Alert Level 5. The issuance of this alert level means that disaster has been already occurring or imminent.

This list is not all inclusive of every shelter.

264 shelters listed are for the 17 Sasebo City jurisdictions EXCEPT for Uku Administration Center Jurisdiction indicated on the following map:
