

FOR OFFICIAL USE ONLY

US NAVY BASES TELEPHONE DIRECTORY FAR EAST [2026-2028]

Do not discuss classified information on non-secure telephones. Official DoD telephones are subject to monitoring at all times for communications security purposes. Use of Defense Switched Network (DSN) constitutes acceptance and approved of monitoring policies.

This information is provided by the Naval Computer and Telecommunications Station Far East (NCTSFE) Base Communications Office (BCO) and our preferred provided. If any of the information in the directory is found to be in error, contact your local BCO.

FOR OFFICIAL USE ONLY

IMPORTANT/EMERGENCY Numbers

ON BASE EMERGENCY NUMBER - 911

For any emergency, which threatens life or property, call 911 as listed below.
This includes calls for ambulance, hospital emergency, fire, reports of crime, and bomb threats.
For housing and off base areas, call the closest base at the numbers listed below.

BOMB THREATS: If you receive a bomb threat by telephone:

- (1) DO NOT HANG UP
- (2) Try to keep the caller on the line
- (3) Signal someone else to call Security Police.

NOTE: SECURITY POLICE WILL ALERT COMMUNICATIONS PERSONNEL TO INITIATE CALL TRACE ACTION.

- (4) If no one is available. DO NOT HANG UP, but use another phone to notify Security Police.
- (5) Obtain as much information as possible about the call/caller using the Bomb Threat Checklist below

1. Telephone number that the threat was received on:

() -

2. Telephone number on your caller ID, if available:

() -

3. Exact time call was received:

HRS

4. Exact Words of Caller: _____

ASK THE FOLLOWING QUESTIONS:

When will the bomb explode? _____

Where is the bomb? _____

What does it look like? _____

What kind of bomb is it? _____

What is your name? _____

What is your address? _____

Where are you calling from? _____

Why did you place the bomb? _____

MAKE SPECIAL NOTE OF THE FOLLOWING:

Caller's voice (calm, excited, disgusted, accent, etc.) _____

Caller's gender (male, female) _____

Caller's age (determined by voice) _____

Was the voice familiar to you? _____

Was there any background noise? _____

IF BOMB THREAT, ASK THE CALLER *WHEN IS THE BOMB TO GO OFF? *WHERE IS THE BOMB TO GO OFF? *WHAT KIND OF BOMB IS IT? *WHAT DOES THE BOMB LOOK LIKE? *WHERE ARE YOU CALLING FROM?		TELEPHONE THREAT COMPLAINT	
『電話による脅迫』に対する告訴			
1. Command 所属部隊

ON BASE PUBLIC TELEPHONES

- a. Domestic calls within Japan, including Okinawa, can be placed using public telephones located throughout Navy bases. Calls can be made using coins or pre-paid calling cards, which can be purchased at a variety of on base and off base locations.
- b. Overseas commercial calls may be placed from international telephone booths located throughout U.S. Navy bases. Use of a credit card or pre-paid telephone card is required.

CALLING TOLL FREE NUMBERS

How to use the 800, 833, 844, 855, 866, 877, 888 service:

- Dial directly toll free number (e.g., 800-555-1212)
 *This access is for OCONUS locations that do not have access to CONUS toll-free dialing.

"0120" Japan Toll Free numbers are available to dial from DSN with commercial access or NTT telephone. To place Japan toll free call:

- From DSN with commercial access, dial "99 + 0120" and the rest of desired toll free telephone number.
- From NTT telephone, dial directly "0120" and the rest of desired toll free telephone number.

NOTE: "1-800" NUMBERS ARE ONLY TOLL FREE WHEN DIALED FROM ON BASE DSN WITHIN THE UNITED STATES. The cost of the call from Japan to CONUS will be billed at the current international direct dialing rate. When making a "1-800" call the following recording will be heard: "Access to the 800 number you have dialed is not free of charge outside the United States. If answered, you will be charged international direct dialing rates for this call. If you do not want to proceed with this call, please hang up now." If you do not hang up after the above statement, your call will be connected to the "1-800" number and international toll charges will be incurred.

GENERAL INFORMATION

The U.S. Forces telephone system in Japan links all military telephone exchanges in Japan, including Okinawa, by automatic direct dial. The system is interconnected to the Public Switched Telephone Network, as well as being integrated with the Defense Switched Network (DSN), a world-wide defense communications network.

The U.S. Forces telephone system in Japan is NOT SECURE and discussion of classified information on non-secure telephones is prohibited. ALL TELEPHONES ON A GOVERNMENT SYSTEM ARE SUBJECT TO MONITORING FOR COMMUNICATIONS SECURITY PURPOSES AT ANY TIME. Official government telephones are provided for the transmission of official information only. Usage of a government non-secure telephone constitutes consent to communications security telephone monitoring in accordance with current regulations. It is the user's responsibility to protect classified or sensitive information being discussed over a telephone line by using secure equipment (STU, STE, etc.)

U.S. Naval Computer and Telecommunications Station Far East (NAVCOMTELSTA FAR EAST) provides telephone services for all Navy installations located throughout mainland Japan and these services may be classified as official (Class A), or unofficial (Class B-1 and B-2) depending on subscriber's mission or usage. The Base Communications Offices (BCO) listed below are responsible for the management and day-to-day operations of each sites noted below:

ATSUGI BCO

Location: Building 71, Atsugi
Customer Service: **264-3300**
(Naval Air Facility Atsugi
telecommunications systems)

SASEBO BCO

Location: Building 1632
Customer Service: **252-3200**
(Sasebo Main Base, Hario Village,
and all other outlying/remote sites)

YOKOSUKA BCO

Location: Building 1555 (PSD 2F)
Customer Service **243-4600**
(Yokosuka, Ikego Housing Area, and
all other outlying/remote sites)

*BCO may/can be closed for business for operational reasons or other related functions. The closure information will be distributed correspondingly through each BCO offices. Please contact "114 (Telephone Trouble Desk)" if any trouble occurs during the closure.

TELEPHONE SERVICES AVAILABLE

- A) Class A: Official telephones with access to the DSN and the commercial public network.
- B) Class B: Un-Official telephones for use in quarters and by certain organizations located on base.
- C) Class C: Official telephones with on-base access only.

TROUBLE REPORTS (114)

All problems involving official or unofficial telephone services should be reported to the Telephone Trouble Desk at extension **114** and also via e-mail at M-YO-NCTSFE-PlantRecords@us.navy.mil. Report the problem, telephone number, your name, and a contact telephone number. A user experiencing loss of critical telephones after normal working hours should report the problem to the base telephone operator by dialing "0".

*Making trouble calls from off-base or on-base NTT telephone, dial the followings to contact Trouble Desk:

Atsugi (0467) 63-0114 / Sasebo (0956) 50-0114 / Yokosuka (046) 816-0114

Trouble within the telephone switch will be isolated and corrected as soon as possible. Should the repairs require dispatching a telephone repairman, trouble will be scheduled by next business day. If the trouble is isolated to negligence of customer owned equipment and a customer requests for a repairman to be called out from home to complete the repair, all labor (after normal working hours) and material costs will be billed to the customer.

It is the user's responsibility to substantiate the interrupted service by immediately notifying the Telephone Trouble Desk and obtaining a trouble call number.

Malicious damage or breakage of government telephone equipment in a residence may result in a loss of telephone privileges, and is punishable under the Uniform Code of Military Justice. Any repair costs will be paid by the subscriber.

CALLER ORIGINATED TRACE (COT) OR MALICIOUS CALL TRACE

This function allows the receiving party to originate a trace on prank or threatening calls. When the called party activates this function a printout of the caller's telephone number, date and time of the call are recorded in the Base Communications Office (BCO). If you

receive a threatening or malicious call, activate this feature by hanging up the phone, pick up the receiver again and immediately dial *57, then hang up. Then place a call to local Security to report the call and inform them that the trace will be on file at the local BCO. Any person making malicious call over DSN facilities will be prosecuted to the full extent of the law.

USE OF TELEPHONE EQUIPMENT (CORDLESS TELEPHONE AND UNIT PURCHASES)

A) Cordless Telephone and wireless devices.

Connecting a cordless telephone purchased in the United States to any telephone network in Japan is strictly prohibited; U.S. made cordless telephones use the same frequencies as the Japanese Public Safety activities. Interference with these frequencies may be subject to legal proceedings.

Japan Ministry of Internal Affairs and Communications publishes official warning stating there are Cordless/Wireless devices manufactured outside of Japan frequently violate Japanese Radio Law due to the technical specifications do not meet the criteria set by its law although these devices are compliance with Federal Communications Commission (FCC) Rules. Given examples are as follows: Family Radio Service (FRS)/General Mobile Radio Service (GMRS) – operates within 462or 467 MHz ranges and may interfere the frequencies Public Safety or broadcasting activities. Cordless Telephones – operate 2.4 GHz ranges and may interfere specified low-power data communication (local wireless LAN) etc. Wireless cameras and baby monitors – operate in 900 MHz, 1.2 GHz, 2.4 GHz ranges and may interfere Air Traffic Control, mobile phones and/or specified low-power data communications (local wireless LAN).

Reference: https://www.soumu.go.jp/main_content/000916566.pdf (English)
<https://www.soumu.go.jp/soutsu/kanto/re/info/gaikoku/index.html> (Japanese only)

Japan-manufactured wireless devices which are identified as having met the proper technical specifications shall have “Japanese Technical Conformity Mark (Giteki Mark)” on wireless products shown on the right.

*Devices sold on military installations must also comply with Japan’s regulations, however, just because it is sold onboard a military installation does not mean it is authorized for use in Japan’s electromagnetic spectrum or use on DSN switches.

B) Telephone Unit Purchases

Both Official (Class A) and Unofficial (Class B) customers are recommended to purchase any telephone equipment/instruments listed on the Approved Product List available at the BCO Offices. If listed devices are not available purchasing for any reason, such as manufacture discontinuation etc., the customers can purchase alternate Analog telephone units with the following conditions; single (or 2) line, corded (regular hand set with cord), line-powered (or powered with AC adapter), and compliance with Federal Communications Commission (FCC) Rules and Regulations Par. 15 and 68.

Reference: http://www.ecfr.gov/cgi-bin/text-idx?c=ecfr&tpl=/ecfrbrowse/Title47/47cfrv1_02.tpl

*The analog telephone units with voice mail capability are not recommended to purchase to avoid conflict for the use of DSN voice mail option available for DSNs. Multi-line unit (3 lines and more) and battery-powered telephone units are neither recommended for purchase to avoid telephone troubles can be caused by these specifications.

OFFICIAL (CLASS A) TELEPHONE SERVICES

Each and every official (Class A) customers' organization is required to complete either Memorandum of Agreement (MOA) or Intra-Service Support Agreement (ISSA) with NCTSFE to clarify the scope of telephone service. Each organization is required to appoint at least one Telecommunications Control Officer (TCO) to establish a single point of contact with local BCO. Incomplete documents may/can be a subject for the BCOs rejecting to provide services requested.

INSTALLATION, REMOVAL OR RELOCATION OF TELEPHONES

Installation, removal, or relocation of official telephones and associated wiring or equipment is prohibited unless done by telephone maintenance personnel with an authorized job order. Requests for such work must be submitted via Telecommunications Service Request (TSR) and must be signed by the command's TCO. TSR's must be submitted to the servicing BCO AT LEAST 10 WORKING DAYS PRIOR to the requested date of service. The request should be accompanied by a space floor plan, providing details and description.

ASBESTOS ABATEMENT AND OTHER NAVFAC REQUIREMENTS

Prior to submitting requirements for telecommunications infrastructure installations, please consult with NAVFAC Environmental through your building manager to confirm the status of Asbestos content in your building. Any Asbestos related issues are the responsibility of each customer. Asbestos investigation and mitigation (or abatement) needs to be requested and funded by the customers to NAVFAC. When/if the Asbestos exists, please note a comment on a TSR in Block 8 "Work Description" and provide the NAVFAC asbestos report. BCO will work with each customer to support a joint site survey with the customer and NAVFAC in and around the proposed work area.

Asbestos mitigation (or abatement) steps must be taken care of in the affected areas BEFORE work can be accomplished by the BCO installation crew. In addition to the Asbestos Abatement, if there will be any other advance action required to be performed by NAVFAC prior to the BCO, the requested telecommunication work may be postponed until the advance work completion. (e.g., Safety Check for the high-place work etc.)

AUTHORIZED DSN CALLS (DSN ACCESS LIST)

DSN calls through the Operator wherein capability is unavailable shall be provided in conjunction with a command sponsored authorization letter "DSN Access List" provided to U.S. Navy Far East DSN Operators. DSN Access List applies to the personnel who does not have official DSN in their on-base or off-base residents to call over sea DSN for official use after working hours.

Requesting commands must submit official letter signed by a Commanding Officer or Officer-In-Charge with a list of all authorized DSN caller to U.S. Navy Far East DSN Operators.

Authorized users should be listed alphabetically with their rank and caller's Personal Rotation Date (PRD). It is the responsibility of the command to update and inform DSN Operators of any changes on the list by submitting a new letter by forwarding it through the local BCO or by faxing it to the operators at 252-2009.

TELEPHONE BILL CERTIFICATION

Official customers' monthly telephone bills are distributed by the BCO Customer Service upon requests to each command's Telephone Control Officer or personnel who are designated as recipients by the TCO. For more information, please contact Official Customer Service at your servicing BCO or email to: m-yo-nctsfe-bco-ts-r-and-inquiry@us.navy.mil

MORALE AND WELFARE CALLS UNAVAILABILITY AND REMINDER

Due to adequate commercial telephone service available in Japan, U.S. Navy installations do not meet the required criteria for moral and welfare calls. Use of the DSN to "Off-Net" at another station for the purpose of "personal business" is prohibited; "Toll skipping" is illegal. However, in accordance with DoD Directive 5500.07 Joint Ethics Regulation, when approved by theater commanders in the interest of HMW, DSN may be used by military members and other DOD employees who are deployed outside CONUS for extended periods on official DOD business. DSN may be authorized, within and outside CONUS, by military members who, although are no longer directly supporting a contingency operation, are hospitalized as a result of wounds or other injuries incurred while serving in direct support of a contingency operation.

ABOUT DEFENSE SWITCHED NETWORK (DSN)

Official DSN is the principle long haul voice communications network within the Defense Information System Network (DISN), providing unsecured direct dialing service worldwide through a system of government owned and leased automatic switching facilities. The purpose of DSN is to handle essential command control, operations, intelligence, logistics, diplomatic, and administrative traffic.

1. OFFICIAL DSN USAGE:

A) Authorized for official communications only.

B) Restricted as follows:

- (1) The minimum time required to accomplish the official business and will not normally exceed 5 minutes.
- (2) The use of a precedence level in consonance with the subject matter of the call as established in the Joint Uniform telephone Communications Precedence System.
- (3) The use of graphic, facsimile, or unsecured voice, data devices only when approved by the agencies or activities. Voice, data, facsimile, and graphic service over DSN will not exceed a continuous transmission time of 18 minutes or a total transmission time of 1 hour during normal business hours.

C) Unauthorized as follows:

- (1) Unofficial or personal calls.
- (2) Off net extension of calls into the commercial system at a BX/PABX, except where such extension has been previously approved by the local authorities controlling the switchboard. DSN for extension into and origination from the Japanese commercial system must be approved prior to connection.

D) DSN user guidelines:

- (1) Prepare notes on subject matters to be discussed beforehand and have reference materials ready. Limit calls to 5 minutes or less.
- (2) You can use DSN only at the level of access that you have on your Telephone.

E) Defense Information Systems Agency (DISA) DSN Telephone Directory

http://www.disa.mil/dsn/dsn_directory.html

2. THE JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM as directed for use by all authorized users of the voice communication facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each precedence category and the types of calls, which may be assigned the respective precedence. Each authorized user should consider whether a call requires special precedence and exercise care not to request or utilize precedence higher than the circumstances require. (Authority JANAP 137 B)

PRECEDENCE DESIGNATOR:

A) **FLASH.** Telephone calls designated FLASH shall take precedence over and shall pre-empt calls designated ROUTINE, PRIORITY or IMMEDIATE. FLASH calls may be pre-empted by application of the FLASH OVERRIDE capability. FLASH calls will be handled as fast as possible. FLASH precedence is reserved for telephone calls pertaining to:

- (a) Command and control of Military forces essential to defense and retaliation.
- (b) Critical intelligence essential to national survival.
- (c) Conduct of diplomatic negotiations critical to the arresting or limiting of hostilities.
- (d) Dissemination of critical civil alert information essential to national survival.
- (e) Continuity of Federal Government functions essential to national survival.
- (f) Fulfillment of critical United States Internal security functions essential to national survival.
- (g) Catastrophic events of national or international significance.
- (h) Situations to use flash precedence:
 - aa. Initial enemy contact have occurred.

- bb. Recall or diversion of friendly aircraft about to bomb targets unexpectedly occupied by friendly forces or emergency action to prevent conflict between friendly forces.
- cc. Extremely important and perishable intelligence.
- dd. Major strategic decisions of urgency.
- ee. Imminent large scale attacks.
- ff. National security information requiring the immediate attention of the President or the Secretary of State.

B) **IMMEDIATE.** Telephone calls designated IMMEDIATE shall take precedence over and shall pre-empt calls designated ROUTINE and PRIORITY. IMMEDIATE calls will be handled as fast as possible. IMMEDIATE precedence is reserved generally for telephone calls pertaining to:

- (a) Situations that will gravely affect the security of national and allied forces.
- (b) Reconstitution of forces in post attack period.
- (c) Intelligence essential to national security.
- (d) Conduct of diplomatic negotiations to reduce or limit the threat of war.
- (e) Implementation of Federal Government actions essential to national survival.
- (f) Situations that will gravely affect the internal security of the United States.
- (g) Civil defense actions concerning direction of our population and their survival.
- (h) Disasters or events of extensive seriousness having an immediate and terminal effect on the welfare of the population.
- (i) Vital information having an immediate effect on aircraft, spacecraft or missile operations.
- (j) Situations to use immediate precedence:
 - aa. Amplifying information on initial enemy contact.
 - bb. An Enemy counter attack, request for, or cancellation of, additional support is needed.
 - cc. Unusual major movement of foreign military forces in time of peace or strained relations.
 - dd. Commitment of a reserve force to attack.
 - ee. The Special weapons logistical support when necessary to sustain operations.
 - ff. Widespread civil disturbance does exist.
 - gg. Distress assistance.
 - hh. To disseminate urgent information, concerning the launch, operation or recovery of spacecraft or missiles.
- (k) Aircraft movement information (e.g. calls pertaining to requests for news of aircraft in flight plans, cancellation calls to prevent unnecessary search/rescue action).
- (l) Damage assessment and remaining capability.
- (m) Assistance to foreign countries in time of natural disaster.
- (n) Coordination and direction of warnings, reports and implementation of natural disaster programs and related operations.
- (o) Critical alerting information to or from Air Traffic Control Centers necessary to permit recovery and diversion of military and civil aircraft in flight.
- (p) Emergency actions concerning the procurement or delivery of supplies or services urgently needed to sustain operations in support of critical national security requirements.

C) **PRIORITY.** Telephone calls designated PRIORITY shall take precedence over and shall pre-empt calls designated ROUTINE. PRIORITY calls will be handled in an expeditious manner. PRIORITY precedence is generally reserved for telephone calls requiring expeditious action by called parties and/or furnishing essential information for impending conduct or where fire or air support of government operations is involved. Situations to use PRIORITY precedence:

- (a) Information on locations where attack is impending or where fire or air support will soon is required.
- (b) Air-ground integrated operations.
- (c) Important intelligence.
- (d) Important information concerning the launch, operation or recovery of spacecraft or missiles.
- (e) Movement of naval air and ground forces.
- (f) Coordination between government agencies concerning the performance of emergency preparedness functions.
- (g) Critical logistic functions, provision of critical public utility services and administrative military support functions.

- (h) Accomplishing tasks necessary to insure critical damage control functions.
- (i) Continuity of critical Government functions.
- (j) Arranging minimum transportation for accomplishing the aforesaid functions.
- (k) Continuing or establishing our more important financial, economic, health, and safety activities and producing, procuring and distributing food materials and supplies which are considered necessary to the immediate support of a war effort, the national defense, or for expediting the means of meeting the effects of natural disaster.

D) **ROUTINE.** Telephone calls designated ROUTINE will be handled in an expeditious manner and in the order placed. ROUTINE designation applies to those OFFICIAL government communications requiring rapid transmission by telephonic means but do not require preferential handling. CALLS NOT MEETING THE ABOVE CRITERIA ARE ROUTINE CALLS.

4. CLASS A (Official) DSN DIALING PROCEDURES ACCORDING TO PRECEDENCE FROM JAPAN:

- A) ROUTINE GLOBAL - Dial DSN Area Code + 7 digits DSN number
- B) PRIORITY PACIFIC - Dial 93 + 7 digits DSN number
- C) PRIORITY CONUS - Dial 93 + 312 + 7 digits DSN number
- D) PRIORITY GLOBAL - Dial 93 + DSN Area Code + 7 digits DSN number
- E) IMMEDIATE PACIFIC - Dial 92 + 7 digits DSN number
- F) IMMEDIATE CONUS - Dial 92 + 312 + 7 digits DSN number
- G) IMMEDIATE GLOBAL - Dial 92 + DSN Area Code + 7 digits DSN number

***Frequently asked DSN Area Codes: Africa -311, U.S.-312, Calibian-313, Europe-314, Far East-315, Alaska-317, Middle East-318, Canada-319

UNOFFICIAL (CLASS B) TELEPHONE SERVICES

Unofficial telephone service is provided to military housing occupants and other unofficial subscribers to support telecommunication needs with DSN calling capabilities with NCTSFE-provided telephone service or local and long distance calling capabilities with NTT-provided commercial telephone service. Either telephone service chosen can be provided to a subscriber's resident however **both services are considered a privilege, not a right.**

Categories: Unofficial telephone subscribers are divided into two categories

Class B-1. Telephone installed in government-owned or leased quarters for family or personal use.

Class B-2. Telephone installed for the use of community service or other private business firms operation on behalf of the Department of Defense (DOD) within or in the immediate vicinity of a DOD installation.

The BCO offices are open from 0800 to 1600, Monday through Friday, excluding lunch hour (12:00-13:00) U.S. holidays, and are the sole source of information concerning unofficial telephone account policies and procedures. All trouble calls, requests for service, and inquiries concerning the content or accuracy of bills shall be directed to the BCO office.

Inquiries concerning billing, disconnection, relocation, or suspension of services will be handled only during regular working hours. Disconnected service will not be reconnected after business hours, weekends and holidays.

Services: Unofficial telephone services are separated into two services

a. **NCTSFE-provided On-base Residential Telephone (Unofficial DSN)** has "Routine Japan DSN only" calling capability to make on-base calls throughout mainland Japan except Okinawa. Subscribers who to make outgoing commercial calls from NCTSFE-provided DSN service are required to use a calling card or another method. (e.g., Magic Jack, Skype, FaceTime etc.)

The telephone line is part of a DoD telephone system and is subject to monitoring and recording. Use of this line constitutes users consent to monitoring and recording for COMSEC and investigatory purposes (required for service).

b. **NTT-provided Commercial Telephone** is capable of dialing out to local, long distance and international telephones (including cellular phones) and is available by submitting requests to both BCO and NTT. The detailed procedures for installation and termination will be explained below.

*Both telephone noted (a) & (b) above are fully capable of receiving direct incoming calls.

**Customer inquiries concerning installation, options, and other related matters should be addressed to local BCOs noted in "General Information" or dial "114 (046-816-0114)" to reach Telephone Trouble Desk.

Installation, Disconnection or Relocation of Telephones

Unofficial telephone subscribers are not authorized to install, remove, or relocate government owned telephones and associated wiring or equipment. If quarters are equipped with modular telephone jacks, residents may install personally owned telephone instruments as their responsibility.

Any work request including initial startup of unofficial telephone service must be applied by the prospective customers by filling out a Telecommunications Service Request (TSR) form at the BCO offices with proper documentation. The TSR is a binding contract between the user and NCTS FE.

a. On-base Unofficial Telephone (NCTSFE-provided Residential DSN) Subscribers' Instruction:

1) CALLING CARD INFORMATION:

AT&T Worldwide Prepaid Card is available to be purchased at Navy Exchange for subscribers to make commercial calls. Access number for AT&T Calling Card is: 800-225-5288.

For more information, please refer the AT&T website or call AT&T customer care at 877-288-3404.

<http://www.corp.att.com/gov/militaryprepaidcards/navy.html>

2) TOLL FREE DIALING:

Residential DSN subscribers can dial US Toll Free numbers at no cost by simply dialing "800-xxx-xxxx". (No need to press "1" at the beginning) Other Toll Free numbers 833, 844, 855, 866, 877, 888 are also available to dial from DSN.

3) TERMINATION REQUEST: All subscribers must make sure to process a Telephone Service Request (TSR) with a copy of PCS orders and a valid forwarding address. If a requestor is a family member or someone acting on behalf, a copy of General or Special Power of Attorney granting authority is required to request termination which shall be done at least (1) one business day prior to leaving the area.

*Vacating a resident without terminating telephone service may cause confusion to next resident, BCO, and RDC in case of emergency. Each and every subscriber's proactive action on telephone termination would be greatly appreciated.

- 4) CALLER ORIGINATOR TRACE (COT) OR MALICIOUS CALL TRACE: is available in Yokosuka. This function allows the receiving party to originate a trace on prank or threatening calls. When called party activates this function, caller's telephone number, date, and time of call are recorded in the BCO. If you receive a threatening or malicious call, activate this feature by hanging up the phone, pick up the receiver again and immediately dial *57 then hang up. Then place a call to Security to report the call and inform them the trace will be on file at the BCO. The BCO will only release the information to Security or NCIS. The BCO cannot release the trace information to individual customers. Any person making malicious calls over DSN facilities will be prosecuted to the full extent of the law.

b. **NTT Commercial Telephone (NTT East or West provided) Subscribers' Instruction:**

Subscribers desired to have commercial telephone at on-base residents are required to submit separate request to corresponding NTT office upon your housing area. Please refer the following for detailed procedures:

Atsugi, Ikego, Yokosuka subscribers to NTT East
Sasebo, Hario, Dragon Vale subscribers to NTT West

APPLYING NTT COMMERCIAL TELEPHONE SERVICE:

- (1) Subscriber submits a TSR to the BCO Customer Service.
- (2) "Acknowledgement of Telephone Installation" will be provided to the subscriber by the BCO once technical preparation completes.
- (3) Subscriber contacts either NTT East or West based on resident's site from public phone or cell phone to apply new installation.

NTT East: 0120-116-000 from cell phone or 116 from public phone

NTT West: 0120-064-337 from both cell phone and public phone

- (4) NTT informs the subscriber the expected installation date and telephone number.
- (5) Telephone connection completes on informed installation date.
*1 to 2 weeks is expected till installation completes.

!! CAUTION !!

Connecting more than (3) telephone units to an NTT line will cause a degradation of service on both incoming and outgoing calls due to the electrical resistance added to the line by each device.

TERMINATING NTT COMMERCIAL TELEPHONE SERVICE:

- (1) Subscriber submits a TSR to the BCO Customer Service 1 month prior to termination date desired.
- (2) Subscriber contacts either NTT East or West based on resident's site. (Refer Par (b) above for contact information)
- (3) NTT informs the subscriber the termination date and provides Final Bill.

INTERNATIONAL CALL FROM NTT LINE is available through international calling service providers such as KDDI, NTT Communications etc. Each service provider has individual "Identification Number" for a subscriber to choose and dial when making international call from NTT Telephone, which can be chosen based on service plans/related costs etc., however a subscriber can skip dialing this "Identification Number" if register one service provider at the time applying for the NTT line. This advance-registration can also provide some discount rate plans to subscribers.

*Please contact your desired service provider for more information on their discount plans.

VENDORS LINKS:

NTT East English website: <http://www.ntt-east.co.jp/en/>

NTT West English website: <http://www.ntt-west.co.jp/english/>

NTT West MYLINE Info: http://www.ntt-west.co.jp/service_guide/3discount/discount16.html

MONTHLY BILLING AND TELEPHONE PAYMENT

Subscribers of NTT commercial telephone service shall receive a Monthly Billing Statement directly from NTT East or West. All subscribers must make sure to process a Telephone Service Request (TSR) with a copy of PCS orders and a valid forwarding address. If a requestor is a family member or someone acting on behalf, a copy of General or Special Power of Attorney granting authority is required to request termination which shall be done at least (1) one business day prior to leaving the area.

*Vacating a resident without terminating telephone service may cause confusion to next resident, BCO, and Regional Dispatch Center (RDC) in case of emergency. Each and every subscriber's proactive action on telephone termination would be greatly appreciated.

TROPICAL CYCLONE CONDITIONS OF READINESS (TCCOR)

Authority: US Forces Japan Instruction 15-4001, Tropical Cyclone Conditions of Readiness (Series)

CONDITION	DEFINITION	RESPONSE FOR YOKOTA AB
TCCOR 4	Winds of 50 knots (58 MPH) or greater are possible within 72 hours	- Obtain emergency supplies
TCCOR 3	Winds of 50 knots (58 MPH) or greater are possible within 48 hours	- Fill vehicle and grill gas tanks - Ensure sufficient money and important documents are easily accessible
TCCOR 2	Winds of 50 knots (58 MPH) or greater are anticipated within 24 hours	- Secure outside items - Determine windows without Mylar
TCCOR 1	Winds of 50 knots (58 MPH) or greater are anticipated within 12 hours	- Move sensitive items away from windows or cover them with plastic - Tape windows without Mylar if winds forecast to exceed 100 knots (115 MPH)
TCCOR 1 Caution	Winds of 34 to 49 knots (39-58 MPH) are occurring	- All non-essential travel is suspended - Non-essential personnel should remain indoors
TCCOR 1 Emergency	Winds of 50 knots (58 MPH) or greater are occurring	- All personnel should stay indoors away from windows
Recovery	Winds of 50 knots (58 MPH) or greater are no longer	- Stay indoors while damage assessment and cleanup is accomplished
All Clear	The threat of severe weather is over	- Resume normal activities
Storm Watch	- Destructive winds have subsided There is still a possibility of danger due to the proximity of the storm	- Personnel should remain alert, monitor radio and television, as rapid changes could occur
Tropical Storm	Tropical cyclone with maximum sustained winds of 34 to 63 knots (39-73 MPH)	
Typhoon	Tropical cyclone with maximum sustained winds of 64 knots or greater (-GTE 74 MPH)	
Super Typhoon	Tropical cyclone with maximum sustained winds of > 129 knots (>149 MPH)

DISASTER PREPAREDNESS - TYPHOONS

Typhoons can be dangerous killers. Learning the typhoon warning messages and planning ahead can reduce the chances of injury of major property damage.

Typhoon season for Japan is June through September, however typhoons have been known to develop as early as May and as late as December.

The joint U.S. Navy and Air Force Typhoon Warning center in Guam, provide tropical cyclone warnings to the U.S. military agencies in Japan. Upon receipt of these warnings, the Commander, U.S. Forces Japan/5 AF will disseminate Tropical Cyclone Conditions of Readiness or "CORS" to the Kanto Plan. CORS simply indicate how soon we can expect the forces of the storm to affect this area.

When a typhoon threatens Kanto Plain area, stay tuned to AFN and AFN Radio (Eagle 810) for local conditions and information.

During a Typhoon Watch;

1. Listen to a battery-operated radio or television for typhoon progress reports.
2. Check emergency supplies.
3. Fuel car.
4. Bring in outdoor objects such as lawn furniture, toys, and garden tools and anchor objects that cannot be brought inside.
5. Secure buildings by closing and boarding up windows.
6. Remove outside antennas.
7. Turn refrigerator and freezer to coldest settings. Open only when absolutely necessary and close quickly.
8. Store drinking water in jugs, bottles, and cooking utensils.
9. Review evacuation plan.
10. Drive only if absolutely necessary.

NOTE: DO NOT TAPE WINDOWS

During a Typhoon Warning;

1. Listen constantly to a battery-operated radio or television for official instruction
2. Store valuables and personal papers in waterproof container on the highest level of your home.
3. Do not use elevators in case of power outage.
4. Open front and back windows slightly to relieve pressure inside of home.
5. Close drapes and blinds to protect injury from broken glass.
6. Stay inside, away from windows, and glass doors.
7. Keep a supply of flashlights and extra batteries handy. Avoid open flames, such as candles and kerosene lamps, as a source of lights.
8. If power is lost, turn off major appliances to reduce power "surge" when electricity is restored.
9. Use telephone only for emergency calls.

When CORS are announced, individuals should SHELTER IN PLACE. The Wing Commander will announce via the Commanders channel which Natural Disaster shelters have been opened. The Natural Disaster shelters are listed below. If you go to a shelter, stay there until informed by local authorities that it is safe to leave.

EARTHQUAKE SAFETY RULES

When an earthquake strikes your area, the “solid” earth moves like the deck of a ship. What you do during and immediately after the shaking makes life-and death differences for you, your family, and your neighbors. These rules will help you survive.

During the Shaking;

1. Do not panic. The motion is frightening, but unless it shakes something down on top of you, it is harmless; keep calm and ride it out.
2. If it catches you indoors, stay indoors. Take cover under a desk, table, bench, doorway, hall, or against inside walls. Try to get in a room with the least window space.
3. Do not use candles, matches, or other open flames during or after the shaking. Put out fires quickly.
4. If the earthquake catches you outside, move away from buildings and utility wires. Once in the open, lie on the ground and stay there until the shaking stops.
5. Do not run through or near buildings. The greatest danger from falling debris is just outside doorways and close to outer walls.
6. If you are in a moving car, stop as quickly as safety permits and lie on the floor. A car is an excellent seismometer and jiggles fearsomely on its springs during an earthquake; but it is a good place to stay until the shaking stops.

After the Shaking;

1. Visually check your utilities, but don't turn them on. Earth movement may have cracked water, gas, and electrical conduits.
2. If you smell gas, open windows and shut off the main valve. Leave the building and report gas leakage to authorities. Do not reenter the house until a utility official says it is safe.
3. If water pipes are damaged, shut off the supply at the main valve.
4. If electrical wiring is shorting out, shut off current at the main meter box.
5. Turn on your radio to get the latest emergency bulletins from AFN.
6. Stay off the telephone except to report an emergency.
7. Do not go sightseeing.
8. Stay out of severely damaged buildings; aftershocks can cause them to fall.

RECOMMENDED EMERGENCY SUPPLIES

Review the checklist below.

___ **Water**

- 1 gal of bottled water per person per day for 3 days min. (2qts for drinking, 2qts for each person in your household for food preparation/sanitation) Children, nursing mothers, ill people will need more. Don't forget your pets' needs, too.

___ **First Aid Kit**

- Sterile adhesive bandages in assorted sizes.
- Sterile gauzes & bandages
- Scissors, Tweezers, & Thermometer
- Antiseptic, etc.

___ **Non-Prescription Drugs**

- (Aspirin or non-aspirin pain reliever, Anti-diarrhea medication, antacid, laxative, disinfectants, etc.)

___ **Items On your Person**

- Wallet
- Purse
- Keys

___ **Food**

- Ready-to-eat canned meals, fruits, and vegetables, sealed food that requires no cooking and no refrigeration. Don't forget your pets' needs, too.

___ **Tools and Supplies**

- Mess kits, or paper cups, plates & plastic utensils, non-electric can opener, knife
- Battery operated radio & extra batteries
- Flashlight & extra batteries
- Pliers, wrench, & hammer
- Plastic storage containers
- Aluminum foil
- Paper & pencils
- Needles & thread
- Fire Extinguisher
- Paper towels
- BBQ Grill or Coleman Gas Stove
- Propane, charcoal, or Coleman Propane

- Ice Chest
- Cash, (dollars & yen) change, and credit cards

___ **Sanitation**

- Toilet paper, towels
- Soap, liquid detergent
- Personal hygiene items
- Plastic garbage bags (small & large)
- Disinfectant & bleach
- Sponges and mops

___ **Clothing and Bedding**

- A set of clean clothes per person (include thermal underwear)
- Sturdy shoes or work boots
- Protective clothing, Rain gear
- Blankets or sleeping bags
- Sunglasses
- Hat & gloves

___ **Special Items**

- Remember family members with special requirements, such as infants and elderly or disabled persons.

___ **For Baby**

- Powdered/canned formulas
- Baby food in jars
- Diapers

___ **Entertainment**

- Games and books
