Subj: DRINKING WATER LEAD SAMPLING RESULTS AT YOKOSUKA GRIDLEY
LANE CHILD DEVELOPMENT CENTER

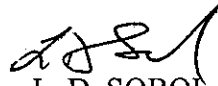

Encl: (1) Sample Summary Results Table for Fleet Activities Yokosuka – Gridley Lane Child
Development Center (Building 4477)

1. The Navy is committed to maintaining safe drinking water on its installations. Our drinking water distribution system is regularly tested for lead and is in compliance with the Environmental Protection Agency's (EPA) Lead and Copper Rule and the Safe Drinking Water Act.
2. Lead exposure is a particular concern for children. Lead in drinking water typically comes from the plumbing inside buildings including lead service lines, fittings, solder, water fountains/coolers, or water faucets. The Navy policy requires we test the lead content of drinking water in priority areas such as schools, youth centers (YCs), and child development centers (CDCs). Lead in Priority Areas (LIPA) testing was conducted at the Yokosuka Gridley Lane Child Development Center (Bldg. 4477) on 15 April 2023.
3. I am pleased to report that all drinking water intended for consumption, to include drinking water and water intended for cooking or washing, is at or below the Navy lead screening level of 15 parts per billion.
4. Navy environmental personnel conducted this testing at the Yokosuka Gridley Lane Child Development Center following Navy policy. Samples from various locations in the CDC were sent to a Navy Water Quality Oversight Council validated laboratory for analysis.
5. We also tested other sinks used for washing. These fixtures were also below screening levels for lead in schools and day care centers. In all, 58 samples were taken and tested.
6. A copy of all test results is enclosed for your information. You can also see a hard copy of our water testing results by contacting Gridley Lane Child Development Center, which is open Monday to Friday (0600-1800).
 - a. To learn more about lead in drinking water in schools and day care centers visit the following EPA website: <https://www.epa.gov/ground-water-and-drinking-water/3ts-reducing-lead-drinking-water>

Subj: DRINKING WATER LEAD SAMPLING RESULTS AT YOKOSUKA GRIDLEY
LANE CHILD DEVELOPMENT CENTER

b. To learn more about the installations public water supplier, see the Fleet Activities Yokosuka annual water quality report: <https://cnrj.cnic.navy.mil/Operations-and-Management/Water-Quality-Information/Water-quality-reports/#CFAY>

7. While lead in the drinking water at these facilities is below the Navy screening levels for schools and daycare centers, if you have any health related questions or concerns about lead exposure, you are encouraged to contact your health care provider or if you are a TRICARE beneficiary use the Yokosuka Naval Hospital central appointment line at DSN: 243-5352.

L. D. SOBOL
