myPay saves money

Encouraging members and civilians to use myPay can save millions of dollars translating into reduced costs for the Department of Defense.

By eliminating costs associated with printing and mailing leave and earning statements, myPay can save 34 cents per payee, which generates more than \$6 million in savings for civilian employees alone.

By providing better online customer service, myPay will reduce up to 17 percent of costs associated with traditional customer service activities now performed in person.
