Subj: SULLIVANS ELEMENTARY SCHOOL'S DRINKING WATER

Enc1: (1) Sample Summary Results Table
(2) Floor Plan - Sullivans Elementary School

1. I want to make you aware of the latest developments regarding our efforts to address elevated lead levels in drinking water testing that was completed in June 2023 at Fleet Activities (FLEACT) Yokosuka Sullivans Elementary School.

2. On 16 January 2025, the community was made aware of the water testing results from 429 outlets. Of these outlets three require action due to results above the updated Navy screening level of 10 ppb for lead. Fixtures that had results at or above 10 ppb were taken out of service.

3. We recently completed all corrective measures, and additional testing show that the lead levels at Sullivans Elementary School are all below 10 ppb.

4. I've attached the complete set of test results, which include the list of sampling locations and the purpose of the water outlet (drinking fountain or sink). As described above, for those locations that exceeded the recommended screening level on the first test, we conducted a follow-on resampling. The attachment provides details on which outlets required corrective action and the actions taken. For outlets where corrective actions were implemented, the attachment also shows the results of follow-on sampling to confirm that lead levels were below 10 ppb. I've also enclosed a floor plan which delineates locations where initial water sampling results exceeded 10 ppb. All outlets are now below the screening level.

5. For your information, I am also including links to additional drinking water quality resources:

a. Environmental Protection Agency (EPA) (lead in drinking water in schools and childcare centers): <https://www.epa.gov/ground-water-and-drinking-water/basic-information-about-lead-drinking-water>

b. Annual consumer confidence water quality report for the installation:
<https://cnrj.cnmc.navy.mil/Operations-and-Management/Water-Quality-Information/Water-quality-reports/#CFAY>

Subj: SULLIVANS ELEMENTARY SCHOOL'S DRINKING WATER

6. Please be assured that my team and I will continue to monitor and test water quality at FLEACT Yokosuka Sullivans Elementary School to ensure our drinking water complies with EPA regulations. If you have questions or concerns, please bring them to the attention of the staff.
7. If you have any health questions or concerns, I encourage you to contact your health care provider or, if you are a TRICARE beneficiary, use the Yokosuka Naval Hospital Appointment Center to schedule an appointment with your primary care provider at (315) 243-5352.
8. I am committed to the safety and health of all personnel and family members using our facilities and will keep you updated on this issue.

Notes:

1. In July 2024, Commander, Navy Installations Command (CNIC) Instruction 5950.6A lowered the lead screening level at all Priority Areas from 15 parts per billion (ppb) to 10 ppb.

2. Affected outlets were secured, corrective actions, and post corrective actions were completed in 2022 and 2023 to meet the lead screening level of 15 ppb and 10 ppb, respectively.

3. Results are below screening level of 10 ppb. No additional actions required.
